

UMUT ÖZTÜRK

Full Stack Web Developer

Professional Summary

Dynamic Full Stack Web Developer and FiveM Architect with a passion for building high-performance digital solutions. Proficient in Next.js, React, and Node.js for modern web development, alongside extensive expertise in Lua for complex FiveM script architecture. Proven track record of managing PXDevelopment, a community of 1,000+ members, and delivering end-to-end digital products through Tebex integration. Adept at creating interactive UI/UX designs and scalable backend systems with a focus on performance and user engagement.

Work History

August 2023 - Current

Full Stack Web Developer, Freelance Web Design and Development,
Ankara, Turkey

- Architect and develop high-performance web applications using modern stacks including Next.js, React, and Tailwind CSS, ensuring responsive and SEO-optimized user interfaces.
- Lead the "PXDevelopment" brand, managing a 1,000+ member community and overseeing the full lifecycle of custom digital products, from initial concept to Tebex store integration and end-user support.
- Specialize in FiveM script development using Lua and the QBCore framework, focusing on server-side performance optimization and creating immersive NUI-based gaming experiences.
- Design and maintain scalable backend solutions with Node.js, Express.js, and complex database management (MySQL, PostgreSQL, MongoDB) to ensure data security and application stability.
- Develop automated Discord bot architectures using discord.js to enhance community engagement and streamline server-wide communication.
- Apply iterative problem-solving to resolve complex merge conflicts, optimize legacy codebases, and maintain high standards of software quality across both web and gaming platforms.
